

International Collaboration in a Borderless World

Scott Algeier, Executive Director, IT-ISAC

Pete Allor, IBM

Chad Greene, eBay

Reneaue Railton, IBM

First Symposium

Barcelona, Spain

Feb. 2, 2011

Agenda

- Introduction
- Corporate policies
- Global Considerations
- Gaps
- Lessons learned

IT-ISAC Mission

- **Share:** Report, exchange, and analyze across the IT sector information on electronic incidents, threats, vulnerabilities, solutions and countermeasures, best security practices, and other protective measures;
- **Trust:** Establish a mechanism for systematic and protected exchange and coordination of information and trusted collaboration; and
- **Lead:** Provide thought leadership to policymakers on cyber security and information sharing issues.

IT-ISAC Capabilities

- 24x7 Response Operations Center
- Technical Committee for facilitating information sharing among members
- Special Interest Groups (such as the Emerging Threat SIG) to focus on specific member defined issues
- Training and Education initiative
- Secure member portal

Panel Objectives

- Facilitate the sharing of effective information sharing practices and triggers
- Explore barriers to sharing information across borders and identify solutions
- Identify gaps in current capabilities and promote solutions to plugging those gaps.

Topic 1: Corporate Polices

- Does your company have set triggers for sharing
- Who do you share with?
- What value is there in your sharing?

Topic 2: Global Considerations

- What's your corporate philosophy about sharing with national governments?
- How do you address critical infrastructure issues in other countries or regions?
- As multi nationals, how do you coordinate with law enforcement?

Topic 3: Gaps

- Do we have regional gaps in information sharing and incident response?
- Do we have gaps in detecting or responding to threats on the Internet Infrastructure?
- How do we plug these gaps?
