

Ukraine on the way
to CERT-UA
creation

State service of special communication and information protection of Ukraine is a state body intended for protection of state information resources in information-telecommunication systems

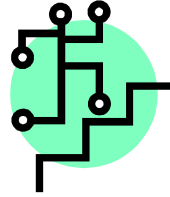

(Law of Ukraine “On State service of special communication and information protection of Ukraine” of February, 23, 2006 № 3475-IV)

State service functions in the sphere of computer incidents response

“... - Accumulation and analysis of data about fulfillment and/or attempts of fulfillment of unauthorized actions concerning state information resources in information-telecommunication systems, and also about their consequences, informing of law-enforcement bodies to take measures on prevention and stoppage of crimes in this sphere

(Law of Ukraine “On State service of special communication and information protection of Ukraine of February, 23, 2006 № 3475-IV)

Steps to CERT-UA creation

- The separate division is formed. Its tasks are coordination of activity of state bodies concerning revealing, estimation and forecasting of threats to information safety, prevention of such threats and ensuring of liquidation of their consequences, international cooperation on these questions

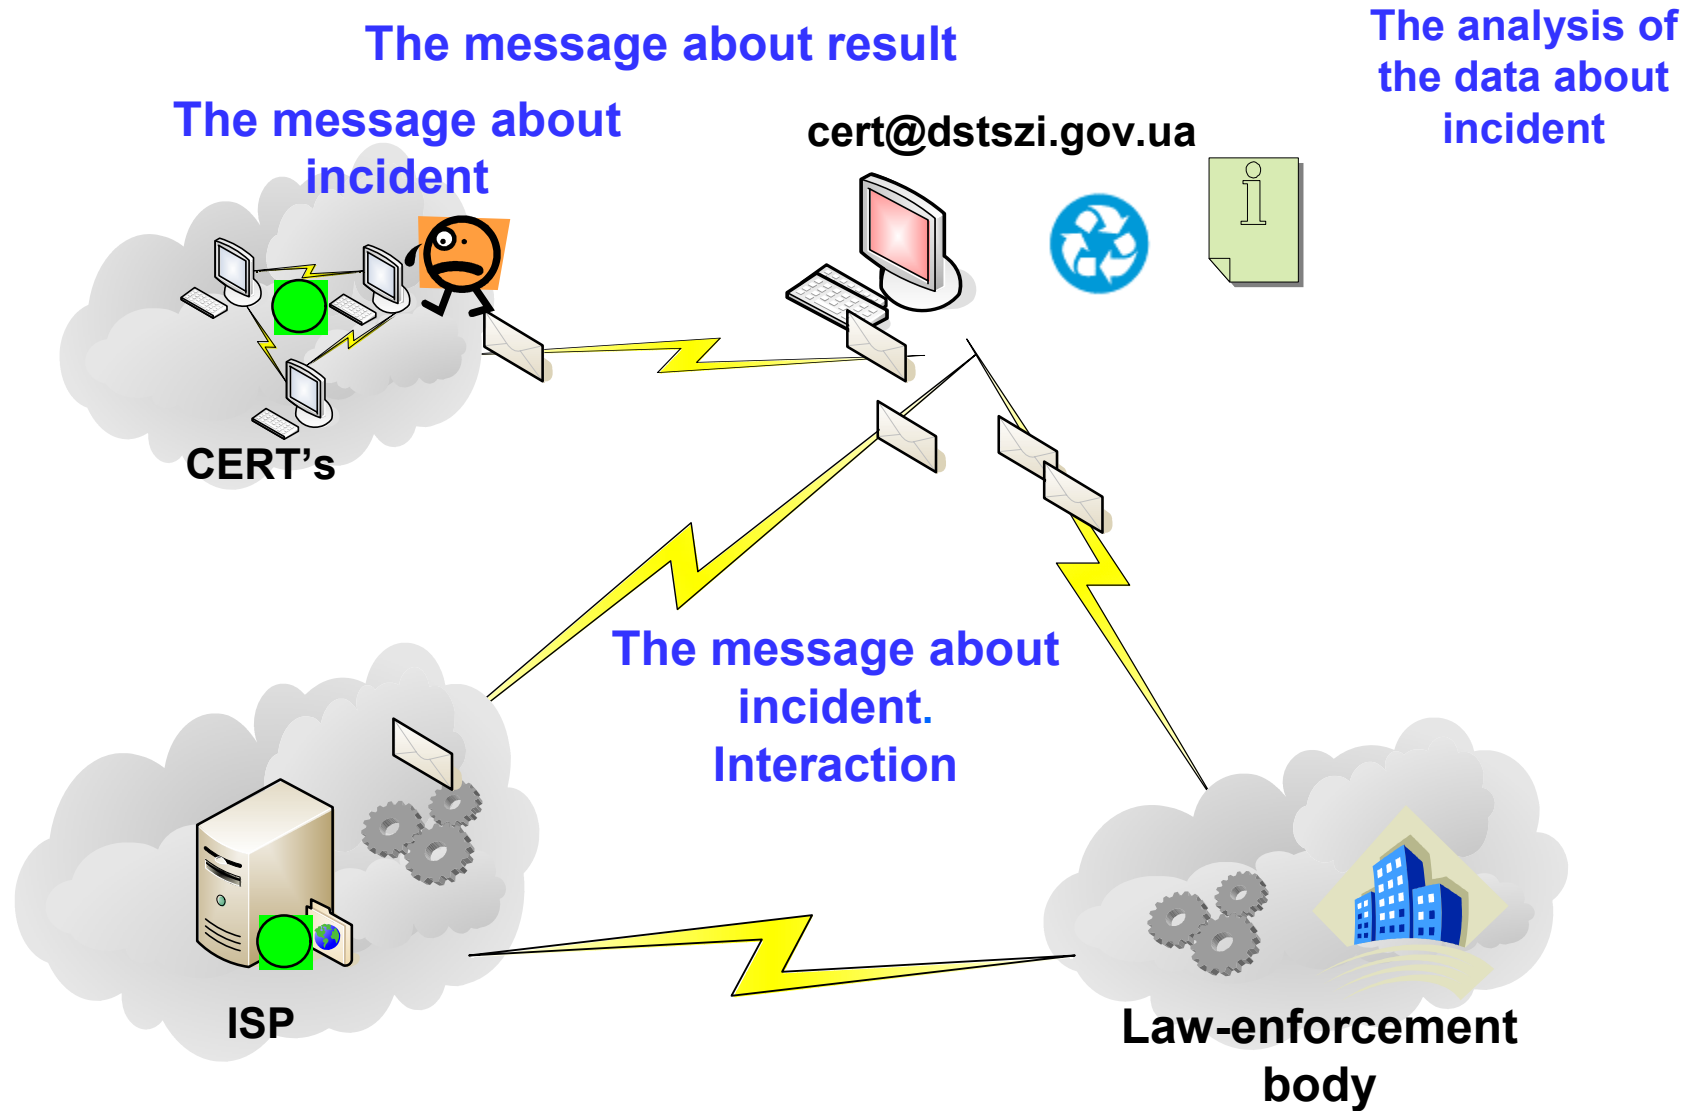

- The project of legal act of the Government of Ukraine about the order of CERT-UA functioning is developed

- The works on creation of web-site www.cert.gov.ua are lasting. Expected term of their functioning beginning is July - August of 2007

CERT-UA

Practical measures for today

Though legally CEPT is at a stage of creation, for a moment the measures of response on computer incidents are carried out, namely:

- The electronic letter box cert@dstszi.gov.ua is used. With its help together with CERT's of Slovenia, Austria, Estonia, Finland a whole series of incidents, realized from the territory of Ukraine concerning the users of these countries is fulfilled.
- The interaction with Ukrainian ISP about response on computer incidents is carried out
- The law-enforcement bodies of Ukraine are informed about these incidents
- Protected unit of Internet access is functioning. It provides round-the-clock service of protected access to Internet resources for more, than 20 state bodies (including Secretary of the President of Ukraine and Cabinet of Ministers of Ukraine)
